COREtec® FLOORS

VIEW

## Mensa 58
### COREtec® The Essentials
### COREtec® Floors

http://www.coretecfloors.com | info@usfloors.be

**Type:     Vinyl | Stone decor**

Laying type: Running bond

The broad palette of styles and colour tones allows you to easily create an interior that makes you, you. Several planks are available with 2 bevelled sides, which means that only the length of the plank is bevelled. You get an incredibly authentic look as a result, and the difference with real parquet flooring is almost impossible to spot.
