14 Hellgrün
MIRA X LIA 7065
Tisca Tischhauser AG

<http://www.tiscatiara.com/> | info@tisca.com

Type: Curtain fabric | Acoustic

LIA is a semi-transparent basic base fabric that can happily also be used as a decorative fabric. LIA is the plain base fabric of DILA and SIMA and can be combined if required. The special feature is the hairy surface with a linen-like character. Thanks to its stability, LIA is also suitable for panel curtains. For optimum drape properties we recommend a warped cut. LIA is an easy to maintain item and very well-suited to property use. This semi-transparent curtain fabric is available in 32 different colours.
