**Type:**     **Curtain fabric | Dense**

100% Polyester flammhemmend (Trevira CS)

Dichter Vorhangstoff; Vielseitig einsetzbarer Uni-Artikel mit zeitloser Optik in Trevira CS. Die Leinwandstruktur und die edle Materialität verleihen dem Stückfärber eine gewisse Tiefe. Die Farbpalette umfasst ein breites Spektrum an neutralen Tönen bis hin zu intensiven und dunklen Colorits.

|                                       |                                                                                                                                                                                                                                                                                                       |

#### IMPORTANT LEGAL INFORMATION FOR USAGE OF THE MTEXTUR-DATABASE AND MTEXTUR DATASHEET:

In the mtextur-database and the mtextur-datasheet you can find a variety of high-quality digitalized materials, classified according material-type and subtype, color scope, field of application, manufacturer and product-line. The liability of the colors and the pattern of a CAD-texture can not always be guaranteed. For binding samples and additional questions please get in contact with the manufacturer or reseller directly (request link on material page). The information found on the mtextur-database is carefully collected and tested. Nevertheless are there possibilities for mistakes or wrong information. The publisher, h2c GmbH, the according manufacturers and resellers are not liable for any missing or incorrect information and its outcome, except h2c GmbH acts insofar willful.
